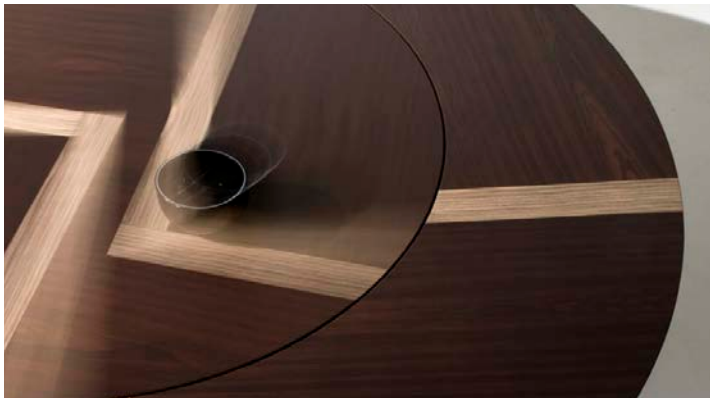
_The combination of the two woods can be chosen by the client always with the aim to offer an exclusive product, made to satisfy the most sophisticated needs. This table is often chosen not only as a dining table but also as a meeting table.

_La combinazione di due diversi legni può essere scelta dal cliente sempre con l'obiettivo di offrire un prodotto esclusivo, realizzato per soddisfare le esigenze dei clienti più sofisticati. Questo tavolo viene spesso scelto anche come elegante tavolo riunioni.

BD 07 LS - Maxima collection

design Bartoli Design



_BD 07 T is characterised by a round top that contrasts with the neat geometrical lines of the top decoration and the base, creating a unique product. A Lasy Susan rotating mechanism can be applied on the round table, creating a surprising yet extremely functional effect.

_BD 07 T è un tavolo caratterizzato da un piano rotondo che contrasta con le linee geometricge nette dell'intarsio decorativo, creando così un prodotto unico.
Il piano rotante con meccanismo Lazy Susan può essere applicato a questo tavolo tondo creando un effetto sorprendente ed estremamente funzionale.

_maintenance

_WOOD

To maintain the natural wood features and protect them from mechanical and chemical wear, the veneered surfaces are coated with a high-quality transparent varnish. Do not use acid or alkaline detergents, agents with bleaching additives, abrasive powders, steel wool, sponges or the like. Anything hot or humid can cause surface damage. Remove dirt and liquids immediately.
For the cleaning and care, it is best to use a soft, dry cloth.
If necessary, the cloth can be slightly dampened and dipped in neutral detergent thoroughly diluted in water. The cloth should only be slightly damp to avoid discoloration or swelling of the surface. Finally, it is essential to gently rub dry surfaces, so that there is no residual moisture.

_LEGNO

Per mantenere il carattere naturale del legno e proteggerlo dall'usura meccanica e chimica, le superfici impiallacciate sono rivestite con una vernice trasparente di alta qualità. Non usare detergenti acidi o alcalini, agenti con additivi sbiancanti, polveri abrasive, lana d'acciaio, spugne o simili. Qualsiasi cosa calda o umida può causare danni alla superficie. Rimuovere immediatamente sporco e liquidi. Per la pulizia e la cura, è preferibile utilizzare un panno morbido e asciutto. Eventualmente il panno può essere leggermente inumidito ed intinto in detergente neutro abbondantemente diluito in acqua. Il panno deve essere solo leggermente umido, per evitare scolorimenti o rigonfiamenti della superficie. È infine essenziale strofinare gentilmente le superfici asciutte, in modo che non sussista umidità residua.
