maintenance

WOOD

Wood is a high-quality natural product. To maintain the natural character of wood and to protect surfaces from mechanical and chemical wear, veneered surfaces are coated with a high quality transparent paint. For cleaning and care, do not use acids or alkali-based cleaners, agents with bleaching additive, scouring powder, steel wool, pot scourers or similar. Anything hot or damp will cause damage to the surface. Remove soiling and liquids immediately. Use a dry soft cloth for cleaning, eventually add a little neutral cleaning agent to the water. The cloth must be only slightly damp, to prevent discolouration or swelling of the surface. It is then essential to rub the surfaces dry, so that there is no residual moisture.

LEGNO

Il legno è un prodotto naturale di alta qualità. Per mantenere il carattere naturale del legno e proteggere le superfici dall'usura meccanica e chimica, le superfici impiallacciate sono rivestite con una vernice trasparente di alta qualità. Per la pulizia e la cura, non usare detergenti acidi o alcalini, agenti con additivi sbiancanti, polveri abrasive, lana d'acciaio, spugne o simili. Qualsiasi cosa calda o umida causerà danni alla superficie. Rimuovere immediatamente sporco e liquidi. Utilizzare un panno morbido e asciutto per la pulizia, eventualmente aggiungere un po' di detergente neutro nell'acqua. Il panno deve essere solo leggermente umido, per evitare scolorimenti o rigonfiamenti della superficie. È quindi essenziale strofinare gentilmente le superfici asciutte, in modo che non ci sia umidità residua.

maintenance

PAINTS, LACQUERINGS AND
SPECIAL FINISHES

Do not use acid or alkaline detergents, agents with bleaching additives, abrasive powders, steel wool, sponges or the like. Do not use furniture polish or solvents to care for painted surfaces. Anything hot or humid can cause surface damage. Pointed or sharp objects, such as blades or knives, can cause damage to the surface. For the cleaning and care, regularly wipe the surfaces with a clean, soft, lint-free cloth to remove dust while avoiding abrasion. For soft-finish painted surfaces, use a soft, lint-free, slightly damp cloth. If heavily soiled, painted surfaces can be cleaned with a neutral, silicone-free detergent. Finally, it is essential to gently rub dry surfaces, so that there is no residual moisture.

TINTE, LACCATURE E FINITURE
SPECIALI

Non usare detergenti acidi o alcalini, agenti con additivi sbiancanti, polveri abrasive, lana d'acciaio, spugne o simili. Non utilizzare lucidi per mobili o solventi per la cura delle superfici vernicate. Qualsiasi cosa calda o umida può causare danni alla superficie. Oggetti appuntiti o taglienti, come lame o coltelli, possono causare danni alla superficie.

Per la pulizia e la cura, pulire regolarmente le superfici con un panno pulito, morbido e privo di lanugine per rimuovere la polvere evitando l'abrasione. Per le superfici vernicate con finitura morbida, utilizzare un panno soffice, privo di lanugine e leggermente umido. Se molto sporche, le superfici vernicate possono essere pulite con un detergente neutro privo di silicone. È infine essenziale strofinare gentilmente le superfici asciutte, in modo che non sussista umidità residua.
