

## Boiserie Line - Line collection

design Cesare Arosio

Made to measure wood veneered panels with horizontal and vertical brass channels. Line wall panels are available in combination with integrated hinged or sliding doors, brass, wood veneered or crystal shelves, crystal showcases and integrated lighting systems. Thanks to its design, this panels system allows covering very wide walls.

Pannelli impiallacciati in legno o tinti anilina realizzati su misura con canali in ottone verticali e orizzontali. La boiserie Line è disponibile in combinazione con porte scorrevoli o battenti integrate, mensole in legno o cristallo, vetrine in cristallo e illuminazione integrata. Grazie al suo design, questa boiserie consente di rivestire pareti molto ampie.

## Boiserie Line - Line collection

design Cesare Arosio

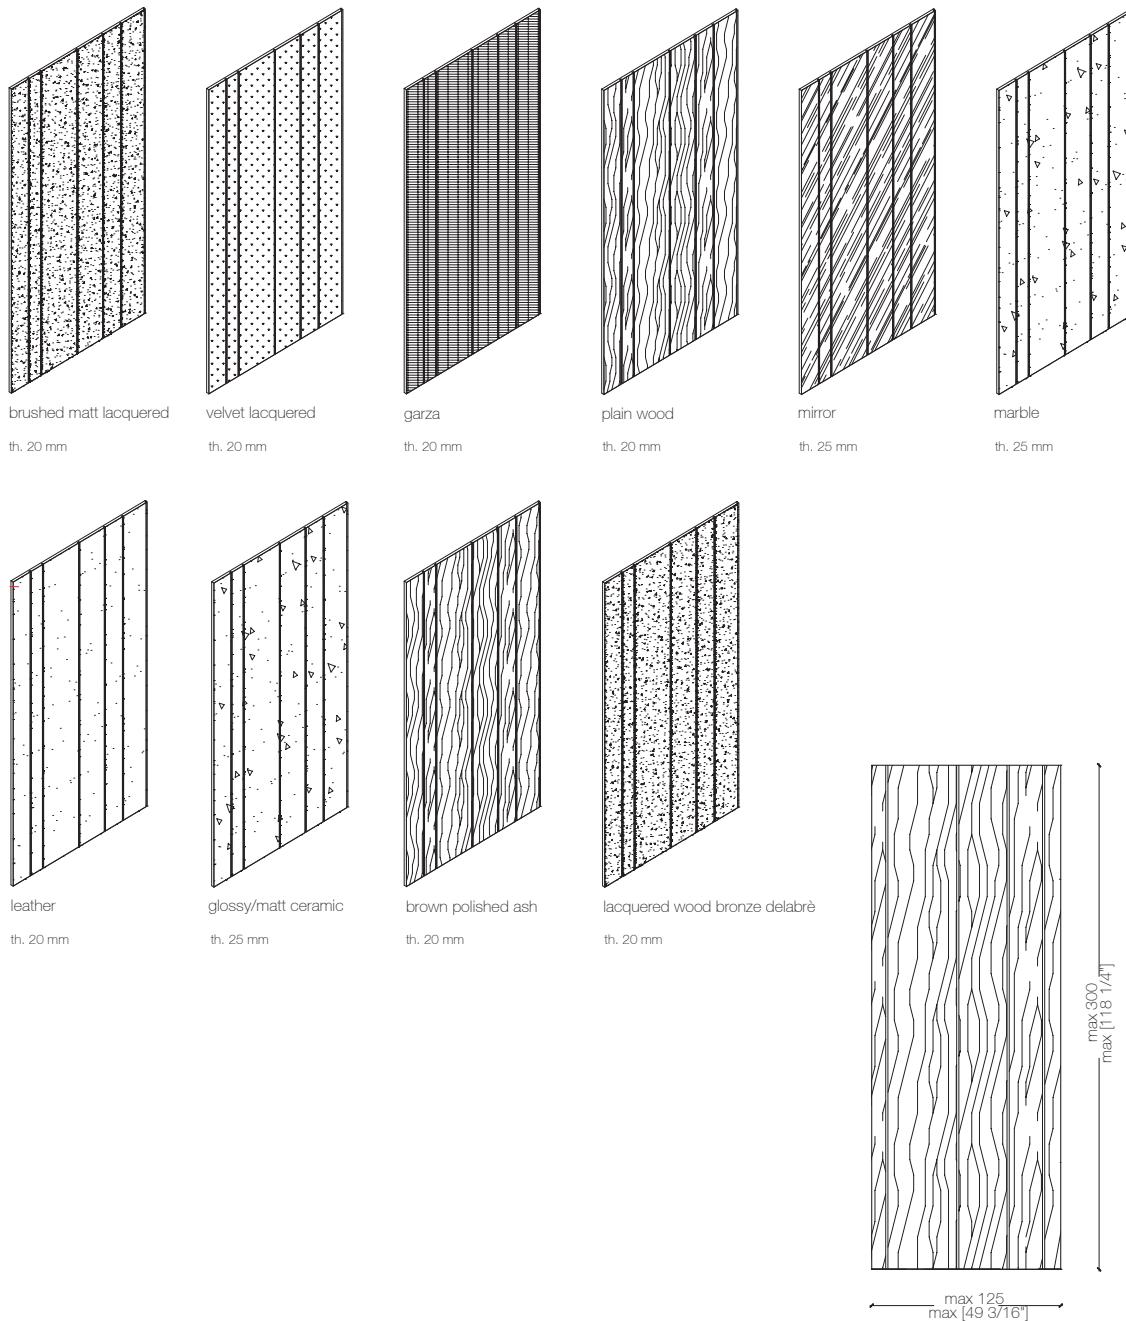

The Line Wall Panels are characterized by a design of vertical brass lines, that decorate the wood surface in a rhythmic sequence, which can be articulated into the panelling. The Line Wall Panels are extremely elegant and thus perfect for all those environments in which luxury is conceived in an essential yet extremely refined way.

La boiserie Line è caratterizzata da un design di linee verticali e orizzontali in ottone, che decorano la superficie di legno in una sequenza ritmica. La collezione Line è estremamente elegante e quindi perfetta per tutti quegli ambienti in cui il lusso è concepito in modo essenziale e raffinato.

assembly instruction

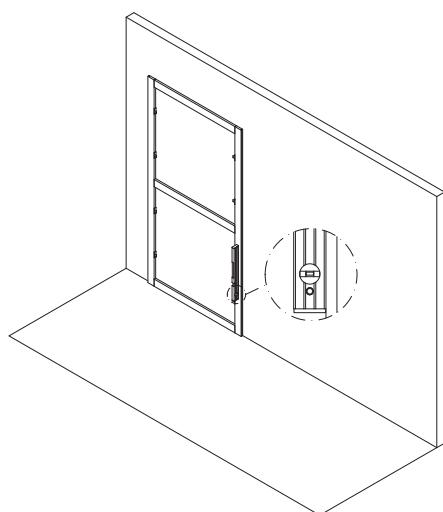

wall panels

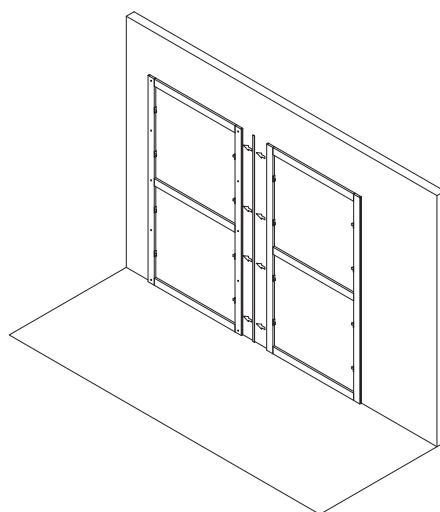

1 Drill the frame and the wall. Insert in the wall the plugs suitable for the existent wall.

2 Screw the frame to the wall.

3 Check the vertical alignment.

4 Place the alignment band into the proper milling on the frame. Place the second frame mortising it, through the proper milling, with the first one, already fixed to the wall.

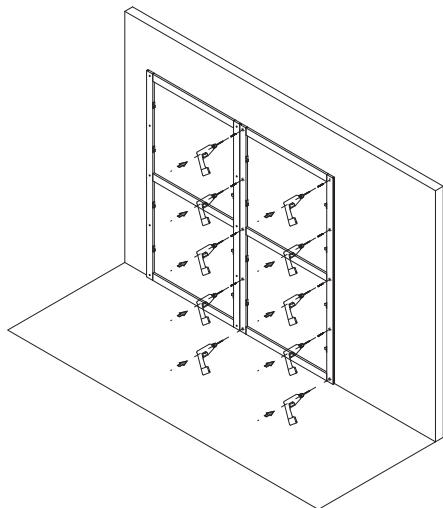

-Dimensions in centimeters and inches.

The right to discontinue and make changes is reserved.

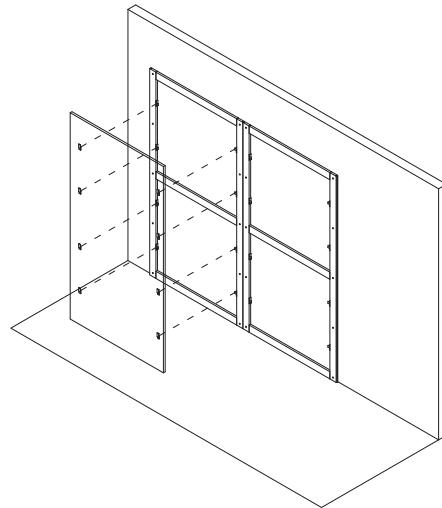

This information is based on the latest product information available at the time of printing.

assembly instruction

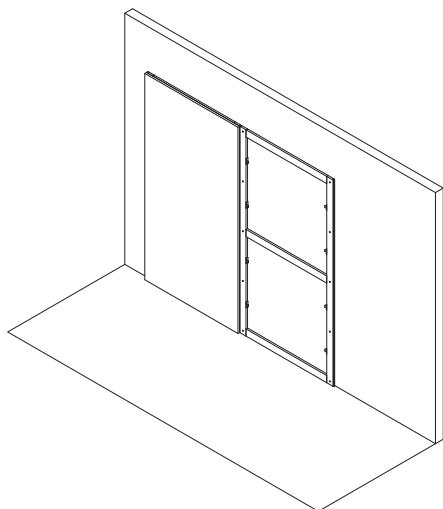

wall panels

5 Repeat the operations nr. 1 - 2 - 3 - 4 for all the frames to be installed.

6 Hook the wall panel through the pre-mounted frame supports and the respective ones pre-installed on the panel.

7 Proceed with the next panels.

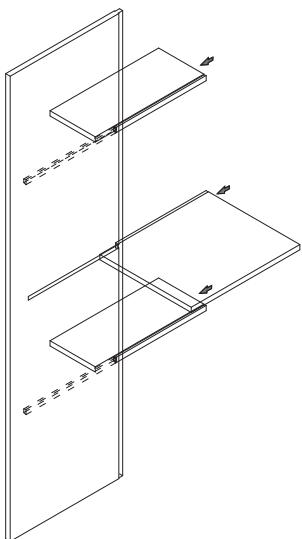

-Dimensions in centimeters and inches.

The right to discontinue and make changes is reserved.

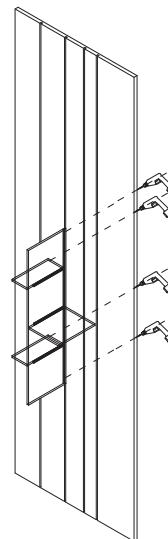

This information is based on the latest product information available at the time of printing.

assembly instruction

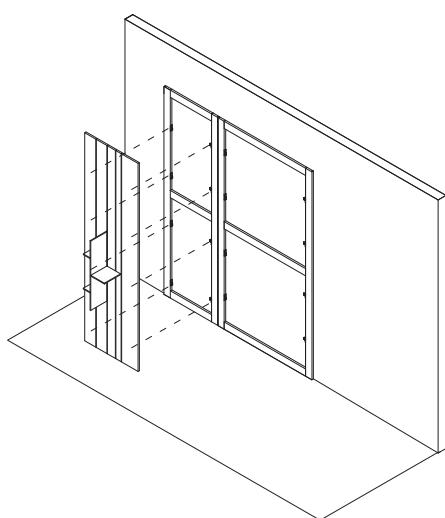

metal shelf

1 Mount the shelves by sliding them into the track.

2 Screw the shelf to the wall.

3 Hook the wall panel through the pre-mounted frame supports and the respective ones pre-installed on the panel.

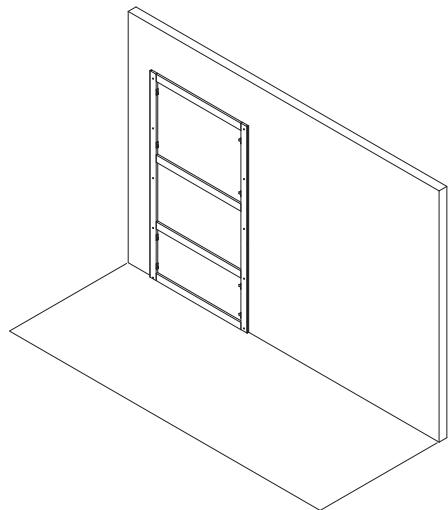

-Dimensions in centimeters and inches.

The right to discontinue and make changes is reserved.

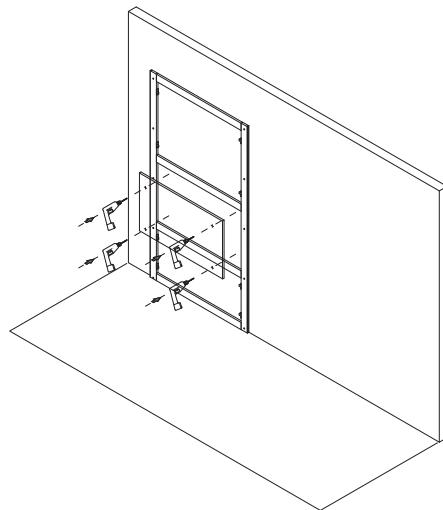

This information is based on the latest product information available at the time of printing.

assembly instruction

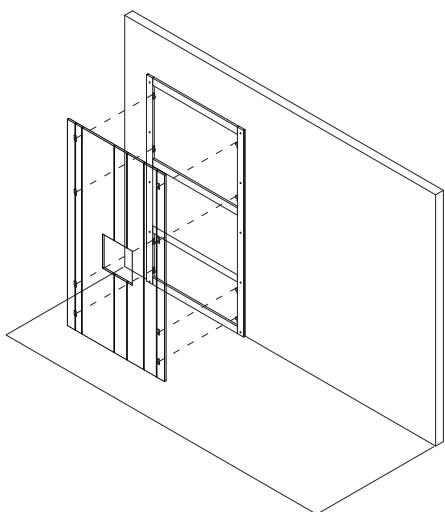

crystal display case

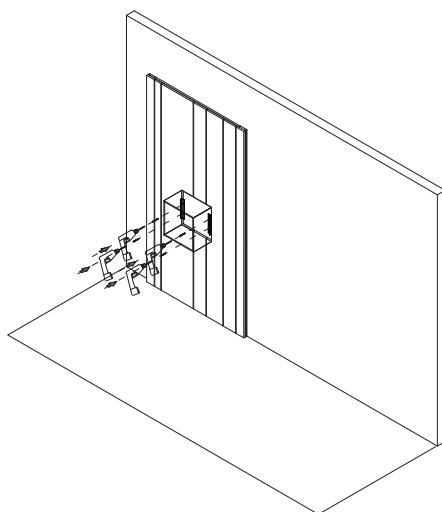

1 Drill the frame and the wall. Insert in the wall the plugs suitable for the existent wall. Then screw the frame to the wall.

2 Screw the panel to the wall.

3 Hook the wall panel through the pre-mounted frame supports.

4 Screw the case to the wall.

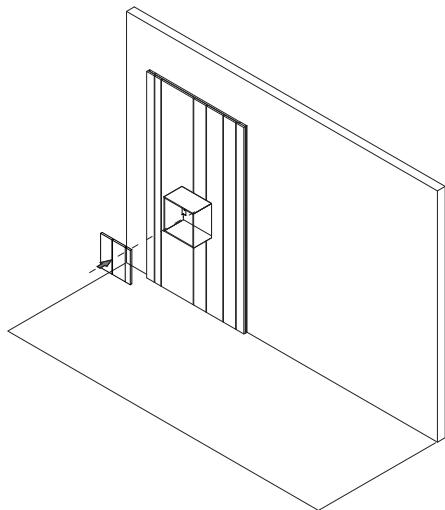

-Dimensions in centimeters and inches.

The right to discontinue and make changes is reserved.

This information is based on the latest product information available at the time of printing.

assembly instruction

crystal display case

- 1 Insert the back panel into the niche and secure it with silicone.

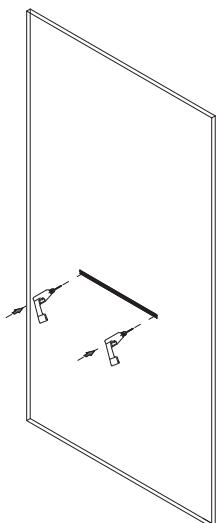

-Dimensions in centimeters and inches.

The right to discontinue and make changes is reserved.

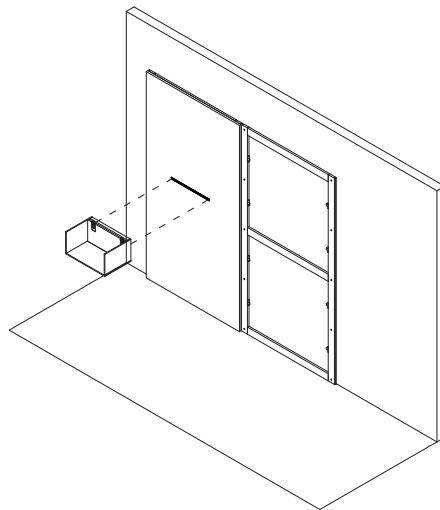

This information is based on the latest product information available at the time of printing.

assembly instruction

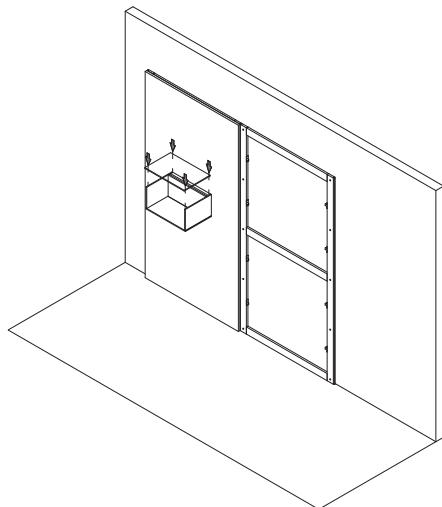

unit with bright bottom

1 Screw the bracket to the panel.

2 Hook the hanging unit through the pre-installed supports.

3 Put the top on the hanging unit.

-Dimensions in centimeters and inches.

The right to discontinue and make changes is reserved.

This information is based on the latest product information available at the time of printing.

maintenance

**CERAMIC**

Ceramics do not require special protective treatments.

Correct and systematic cleaning is sufficient to keep the surface unaltered.

Do not use cleaning products containing hydrofluoric acid (HF) and its derivatives.

Do not use abrasive agents, steel wool, pot cleaners, glass cleaners, aggressive solvents, dyes, bleach or the like.

For cleaning and care, proceed with a simple washing with hot water, a soft cloth or sponge and possibly with the use of neutral and well-diluted detergents.

The final gentle rinsing with a clean cloth is recommended to avoid streaks and residues.

**CERAMICA**

Le ceramiche non necessitano di speciali trattamenti di protezione.

Una corretta e sistematica pulizia è sufficiente a mantenere inalterata la superficie.

Non utilizzare i prodotti di pulizia contenenti acido fluoridrico (HF) e i suoi derivati.

Non usare agenti abrasivi, lana d'acciaio, detergenti per pentole, detergenti per vetri, solventi aggressivi, coloranti, candeggina o simili.

Per la pulizia e la cura, procedere con un normale lavaggio con acqua calda, straccio o spugna morbida ed eventualmente con l'utilizzo di detergenti neutri e ben diluiti.

Il risciacquo finale con uno straccio pulito è consigliabile in qualsiasi caso per evitare aloni e residui.

maintenance

**LEATHER**

The finish of the finest leathers can be seriously damaged through the use of improper or unsuitable products; damage occurs over time, after several cleaning operations. Do not use acids or alkali-based cleaners. Never use stain removers, shoe cream, solvents, floor wax, cosmetics or other harsh cleaners. Do not use abrasive agents, steel wool, pot cleaners or similar. It is recommended to protect the product from abrasion, humidity and other factors so that the surface is not irreparably damaged. It is advisable not to expose the product to strong heat sources, as this can alter its appearance. For cleaning and care, regularly wipe the leather surface with a soft cloth. Use the blunt nozzle of a vacuum cleaner to remove any crumbs and sand.

Attention: Nubuck grain leathers as well as leathers finished with aniline cannot be absolutely cleaned, except with a simple soft and completely dry cloth. Any product could irreparably damage the skin.

**PELLE**

La finitura delle pelli più pregiate può danneggiarsi gravemente con l'uso di prodotti impropri o non idonei; i danni si manifestano con il passare del tempo, dopo diverse operazioni di pulizia. Non utilizzare acidi o detergenti a base di alcali. Non usare mai smacchiatori, crema per scarpe, solventi, cera per pavimenti, cosmetici o altri detergenti aggressivi. Non utilizzare agenti abrasivi, lana d'acciaio, detergenti per pentole o simili. Si consiglia di proteggere il prodotto da abrasione, umidità e altri fattori in modo che la superficie non venga danneggiata irreparabilmente. Si consiglia di non esporre il prodotto a forti fonti di calore, poiché questo può alterarne l'aspetto. Per la pulizia e la cura, spolverare regolarmente la superficie della pelle con un panno morbido. Utilizzare l'ugello smussato di un'aspirapolvere per rimuovere eventuali briciole e sabbia.

Attenzione: le pelli fiore Nabuk così come le pelli rifinite con anilina non possono essere assolutamente pulite, se non con un semplice panno morbido e completamente asciutto. Qualsiasi prodotto potrebbe danneggiare irreparabilmente la pelle.

maintenance

**MARBLES**

Natural stone is a high-quality natural product. Natural variations in colour and structure are special features of natural stone. Each stone is unique. Natural stone is easily damaged by acids, grease and oil. Only neutral cleaning agents should be used to clean the surface. Do not use glass cleaner, powerful abrasives, acids, alkali-based cleaners, aggressive solvents, dyes or bleach. Do not use steel wool, pot cleaners or similar. Anything hot or damp will cause damage to the surface. Protect the product against abrasion, dampness and other external influences to prevent the long-term destruction of the surface. Remove soiling and fluids immediately. Especially acidic, alkaline and other aggressive fluids should be removed so that they do not penetrate the natural stone. They can leave dark, light and matt stains which can no longer be removed. Dust the natural stone regularly with a soft, lint-free cloth.

**MARMI**

I nostri marmi sono un prodotto naturale di alta qualità. Le variazioni naturali di colore e struttura sono caratteristiche speciali della pietra naturale. Ogni pietra è unica. La pietra naturale è facilmente danneggiabile da acidi, grassi e olio. Usare solo detergenti neutri per pulire la superficie. Non utilizzare detergenti per vetri, abrasivi potenti, acidi, detergenti a base di alcali, solventi aggressivi, coloranti o candeggina. Non usare lana d'acciaio, detergenti per pentole o simili. Qualsiasi cosa calda o umida causerà danni alla superficie. Proteggere il prodotto dall'abrasione, dall'umidità e da altre influenze esterne per prevenire la distruzione a lungo termine della superficie. Rimuovere immediatamente sporco e liquidi. I liquidi particolarmente acidi, alcalini e altri aggressivi devono essere rimossi in modo che non penetrino nella pietra naturale. Possono lasciare macchie scure, chiare e opache che non possono più essere rimosse. Spolverare la pietra naturale regolarmente con un panno morbido e privo di lanugine.

maintenance

PAINTS, LACQUERINGS AND  
SPECIAL FINISHES

Do not use acid or alkaline detergents, agents with bleaching additives, abrasive powders, steel wool, sponges or the like. Do not use furniture polish or solvents to care for painted surfaces. Anything hot or humid can cause surface damage. Pointed or sharp objects, such as blades or knives, can cause damage to the surface. For the cleaning and care, regularly wipe the surfaces with a clean, soft, lint-free cloth to remove dust while avoiding abrasion. For soft-finish painted surfaces, use a soft, lint-free, slightly damp cloth. If heavily soiled, painted surfaces can be cleaned with a neutral, silicone-free detergent. Finally, it is essential to gently rub dry surfaces, so that there is no residual moisture.

TINTE, LACCATURE E FINITURE  
SPECIALI

Non usare detergenti acidi o alcalini, agenti con additivi sbiancanti, polveri abrasive, lana d'acciaio, spugne o simili. Non utilizzare lucidi per mobili o solventi per la cura delle superfici vernicate. Qualsiasi cosa calda o umida può causare danni alla superficie. Oggetti appuntiti o taglienti, come lame o coltelli, possono causare danni alla superficie.

Per la pulizia e la cura, pulire regolarmente le superfici con un panno pulito, morbido e privo di lanugine per rimuovere la polvere evitando l'abrasione. Per le superfici vernicate con finitura morbida, utilizzare un panno soffice, privo di lanugine e leggermente umido. Se molto sporche, le superfici vernicate possono essere pulite con un detergente neutro privo di silicone. È infine essenziale strofinare gentilmente le superfici asciutte, in modo che non sussista umidità residua.
