

Boiserie Plain - Plain collection

design Laurameroni

Made to measure wall panels in smooth, lacquered or matt wood, available in all woods and finishes of the collection or in fabric, and with integrated sliding, hinged or pivot doors. The panels can be used in combination with shelves in veneered or lacquered wood and with shelves in matt lacquered metal or with an iron finish.

Boiserie su misura in legno liscio, laccato o opaco, disponibile in tutti i legni e in tutte le finiture della collezione o in tessuto, e con porte scorrevoli, battenti o pivot integrate. I pannelli possono essere usati in combinazione con mensole in legno impiallacciato o laccato e con mensole in metallo laccato opaco o con finitura ferro.

_assembly instruction

wall panels

1 Drill the frame and the wall. Insert in the wall the plugs suitable for the existent wall.

2 Screw the frame to the wall.

3 Check the vertical alignment.

4 Place the alignment band into the proper milling on the frame. Place the second frame mortising it, through the proper milling, with the first one, already fixed to the wall.

-Dimensions in centimeters and inches.

The right to discontinue and make changes is reserved.

This information is based on the latest product information available at the time of printing.

_assembly instruction

wall panels

5 Repeat the operations nr. 1 - 2 - 3 - 4 for all the frames to be installed.

6 Hook the wall panel through the pre-mounted frame supports and the respective ones pre-installed on the panel.

7 Proceed with the next panels.

-Dimensions in centimeters and inches.
The right to discontinue and make changes is reserved.
This information is based on the latest product information available at the time of printing.

_assembly instruction

metal shelves

1 Unpack the wall panel. Hook the wall panel through the pre-mounted frame supports and the respective ones pre-installed on the panel.

2 Screw the shelf to the next panel.

3 Hook the panel with the shelf through the pre-installed frame supports and the corresponding ones pre-installed on the panel. Repeat the operations nr. 2 - 3 for all the panels with the shelves to be installed.

-Dimensions in centimeters and inches.

The right to discontinue and make changes is reserved.

_maintenance

_WOOD

Wood is a high-quality natural product. To maintain the natural character of wood and to protect surfaces from mechanical and chemical wear, veneered surfaces are coated with a high quality transparent paint. For cleaning and care, do not use acids or alkali-based cleaners, agents with bleaching additive, scouring powder, steel wool, pot scourers or similar. Anything hot or damp will cause damage to the surface. Remove soiling and liquids immediately. Use a dry soft cloth for cleaning, eventually add a little neutral cleaning agent to the water. The cloth must be only slightly damp, to prevent discolouration or swelling of the surface. It is then essential to rub the surfaces dry, so that there is no residual moisture.

_LEGNO

Il legno è un prodotto naturale di alta qualità. Per mantenere il carattere naturale del legno e proteggere le superfici dall'usura meccanica e chimica, le superfici impiacciate sono rivestite con una vernice trasparente di alta qualità. Per la pulizia e la cura, non usare detergenti acidi o alcalini, agenti con additivi sbiancanti, polveri abrasive, lana d'acciaio, spugne o simili. Qualsiasi cosa calda o umida causerà danni alla superficie. Rimuovere immediatamente sporco e liquidi. Utilizzare un panno morbido e asciutto per la pulizia, eventualmente aggiungere un po' di detergente neutro nell'acqua. Il panno deve essere solo leggermente umido, per evitare scolorimenti o rigonfiamenti della superficie. È quindi essenziale strofinare gentilmente le superfici asciutte, in modo che non ci sia umidità residua.

_maintenance

VELVET

Our velvet fabrics must be dry cleaned. Deep cleaning and spot cleaning should only be performed by a tapestry cleaning expert. Depending on the wear and on the colour of the velvet, we recommend a professional deep cleaning every four to five years. In our experience, it is not always possible to remove the signs of wear on the seat by treating the fabric.

Do not use acids or alkali-based cleaners. Do not use stain removers, shoe cream, solvents, floor wax, cosmetics or other harsh cleaners. Do not use abrasive agents, steel wool, pot cleaners or similar. It is recommended to protect the product from abrasion, humidity and other factors so that the surface is not irreparably damaged.

For cleaning and care, it is recommended to brush the surfaces regularly using a soft brush (such as a clothes brush) following the natural grain of the fabric. Loose dust and dirt can be removed regularly from velvet by vacuuming with a special nozzle for tapestry or soft-bristled upholstery. The nozzle must not have protrusions or sharp edges, as they could damage the velvet. If necessary, you can clean the product with a damp suede, applying light pressure and following the natural grain of the fabric.

VELLUTO

I nostri tessuti in velluto devono essere lavati a secco. La pulizia profonda e la pulizia di macchie devono essere eseguite solo da un esperto addetto alla pulizia della tappezzeria. A seconda dell'usura e del colore del velluto, si consiglia una pulizia profonda professionale ogni quattro-cinque anni. Per la nostra esperienza, non è in ogni caso sempre possibile rimuovere i segni dell'usura sulla seduta trattando il tessuto.

Non utilizzare acidi o detersivi a base di alcali. Non usare smacchiatori, crema per scarpe, solventi, cera per pavimenti, cosmetici o altri detersivi aggressivi. Non utilizzare agenti abrasivi, lana d'acciaio, detersivi per pentole o simili. Si consiglia di proteggere il prodotto da abrasione, umidità e altri fattori in modo che la superficie non venga danneggiata irreparabilmente.

Per la pulizia e la cura, si consiglia di spazzolare regolarmente le superfici usando una spazzola morbida (come una spazzola per vestiti) seguendo le venature naturali del tessuto. La polvere e lo sporco sciolto possono essere rimossi regolarmente dal velluto aspirando con una speciale bocchetta per tappezzeria o imbottiti a setole morbide. La bocchetta non deve presentare risalti o spigoli vivi, poiché potrebbero danneggiare il velluto. Se necessario, è possibile pulire il prodotto con una pelle scamosciata umida, facendo una leggera pressione e seguendo le venature naturali del tessuto.

SHINY VELVETS

_maintenance

**PAINTS, LACQUERINGS AND
SPECIAL FINISHES**

Do not use acid or alkaline detergents, agents with bleaching additives, abrasive powders, steel wool, sponges or the like. Do not use furniture polish or solvents to care for painted surfaces. Anything hot or humid can cause surface damage. Pointed or sharp objects, such as blades or knives, can cause damage to the surface. For the cleaning and care, regularly wipe the surfaces with a clean, soft, lint-free cloth to remove dust while avoiding abrasion. For soft-finish painted surfaces, use a soft, lint-free, slightly damp cloth. If heavily soiled, painted surfaces can be cleaned with a neutral, silicone-free detergent. Finally, it is essential to gently rub dry surfaces, so that there is no residual moisture.

**TINTE, LACCATURE E FINITURE
SPECIALI**

Non usare detergenti acidi o alcalini, agenti con additivi sbiancanti, polveri abrasive, lana d'acciaio, spugne o simili. Non utilizzare lucidi per mobili o solventi per la cura delle superfici verniciate. Qualsiasi cosa calda o umida può causare danni alla superficie. Oggetti appuntiti o taglienti, come lame o coltelli, possono causare danni alla superficie.

Per la pulizia e la cura, pulire regolarmente le superfici con un panno pulito, morbido e privo di lanugine per rimuovere la polvere evitando l'abrasione. Per le superfici verniciate con finitura morbida, utilizzare un panno soffice, privo di lanugine e leggermente umido. Se molto sporche, le superfici verniciate possono essere pulite con un detergente neutro privo di silicone. È infine essenziale strofinare gentilmente le superfici asciutte, in modo che non sussista umidità residua.
