\_maintenance

**\_MARBLE**

Natural stones are easily damaged by acids, fats and oils. These liquids tend to penetrate natural stone and leave dark, light or opaque stains that can no longer be removed.

Do not use acid cleaners, solvents or alkalis. Do not use abrasive agents, steel wool, pot cleaners, glass cleaners, aggressive solvents, dyes, bleach or the like. Anything hot or humid can cause surface damage.

For the cleaning and care, protect the product from abrasion, moisture and other external influences to prevent long-term destruction of the surface. Dust the natural stone regularly with a soft, lint-free cloth. Remove dirt and liquids immediately using only neutral detergents.

**\_MARMO**

Le pietre naturali sono facilmente danneggiabili da acidi, grassi ed oli. Questi liquidi tendono a penetrare nella pietra naturale e lasciare macchie scure, chiare od opache che non possono più essere rimosse.

Non utilizzare detergenti acidi, solventi o alcali. Non usare agenti abrasivi, lana d'acciaio, detergenti per pentole, detergenti per vetri, solventi aggressivi, coloranti, candeggina o simili. Qualsiasi cosa calda o umida può causare danni alla superficie.

Per la pulizia e la cura, proteggere il prodotto dall'abrasione, dall'umidità e da altre influenze esterne per prevenire la distruzione a lungo termine della superficie. Spolverare la pietra naturale regolarmente con un panno morbido e privo di lanugine. Rimuovere immediatamente sporco e liquidi utilizzando solo detergenti neutri.

\_maintenance

**METAL & LIQUID METAL**

To maintain the natural features of the metal and to protect the specific craftsmanship from oxidation and discoloration, the metal surfaces are coated with a high-quality transparent varnish. Do not use acid cleaners, solvents or alkalis. Do not use abrasive agents, steel wool, pot cleaners, glass cleaners, aggressive solvents, dyes, bleach or the like. Pointed or sharp objects, such as blades or knives, can cause damage to the surface. Anything hot or humid can cause surface damage.

For cleaning and care, remove light dirt with a soft cloth and a neutral household cleaning product well diluted in water. Gently clean the metal parts by hand with cold or warm water and dry immediately with a soft cloth.

**METALLO & METALLO LIQUIDO**

Per mantenere il carattere naturale del metallo e tutelare la specifica lavorazione artigianale da ossidazione e scolorimento, le superfici metalliche sono rivestite con una vernice trasparente di alta qualità.

Non utilizzare detergenti acidi, solventi o alcali. Non usare agenti abrasivi, lana d'acciaio, detergenti per pentole, detergenti per vetri, solventi aggressivi, coloranti, candeggina o simili. Oggetti appuntiti o taglienti, come lame o coltelli, possono causare danni alla superficie. Qualsiasi cosa calda o umida può causare danni alla superficie.

Per la pulizia e la cura, rimuovere lo sporco leggero con un panno morbido ed un prodotto neutro per la pulizia della casa abbondantemente diluito in acqua.

Pulire delicatamente a mano le parti metalliche con acqua fredda o tiepida ed asciugare immediatamente con un panno morbido.
