

Boiserie Line - Line collection

design Cesare Arosio

Made to measure wood veneered panels with horizontal and vertical brass channels. Line wall panels are available in combination with integrated hinged or sliding doors, brass, wood veneered or crystal shelves, crystal showcases and integrated lighting systems. Thanks to its design, this panels system allows covering very wide walls.

Pannelli impiallacciati in legno o tinti anilina realizzati su misura con canali in ottone verticali e orizzontali. La boiserie Line è disponibile in combinazione con porte scorrevoli o battenti integrate, mensole in legno o cristallo, vetrine in cristallo e illuminazione integrata. Grazie al suo design, questa boiserie consente di rivestire pareti molto ampie.

Boiserie Line - Line collection

design Cesare Arosio

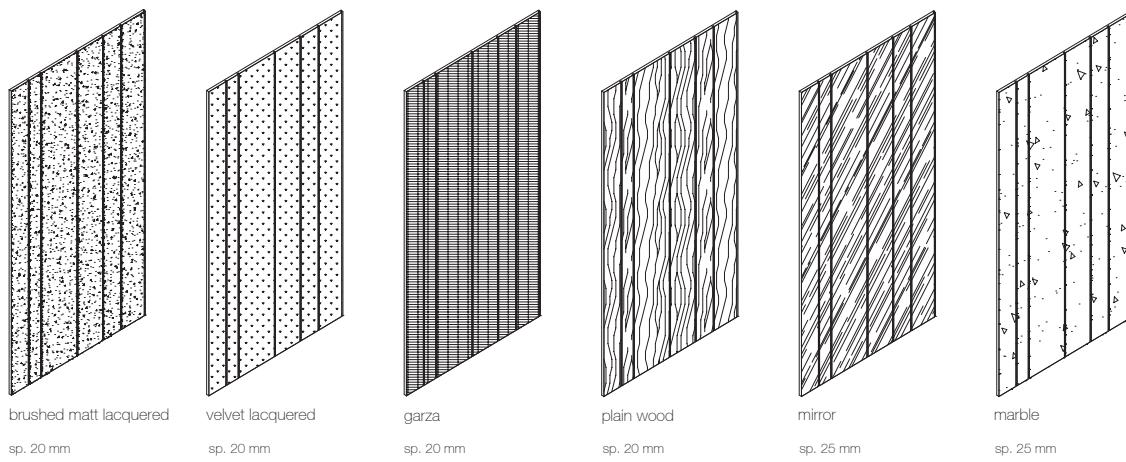

The Line Wall Panels are characterized by a design of vertical brass lines, that decorate the wood surface in a rhythmic sequence, which can be articulated into the panelling. The Line Wall Panels are extremely elegant and thus perfect for all those environments in which luxury is conceived in an essential yet extremely refined way.

La boiserie Line è caratterizzata da un design di linee verticali e orizzontali in ottone, che decorano la superficie di legno in una sequenza ritmica. La collezione Line è estremamente elegante e quindi perfetta per tutti quegli ambienti in cui il lusso è concepito in modo essenziale e raffinato.

assembly instruction

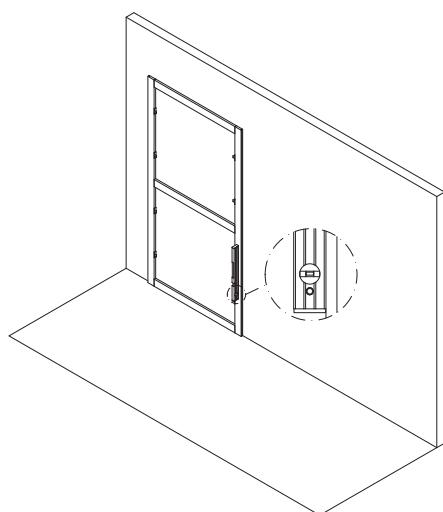

wall panels

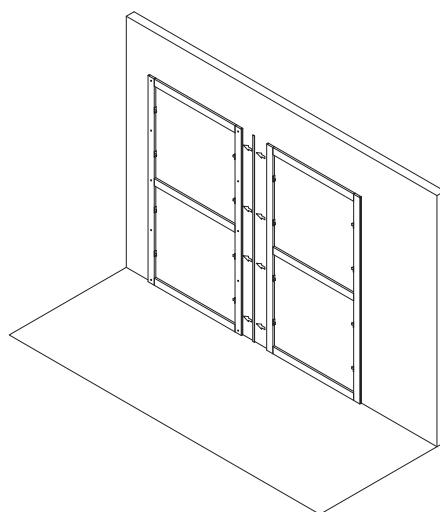

1 Drill the frame and the wall. Insert in the wall the plugs suitable for the existent wall.

2 Screw the frame to the wall.

3 Check the vertical alignment.

4 Place the alignment band into the proper milling on the frame. Place the second frame mortising it, through the proper milling, with the first one, already fixed to the wall.

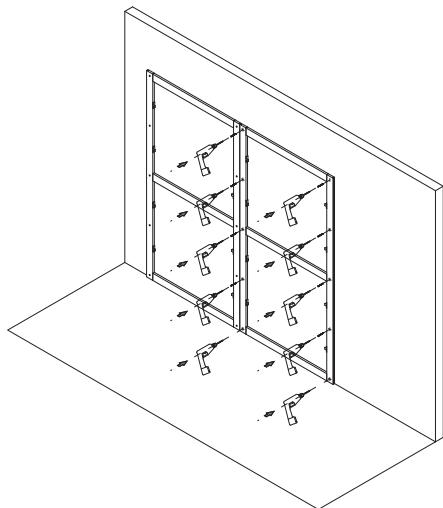

-Dimensions in centimeters and inches.

The right to discontinue and make changes is reserved.

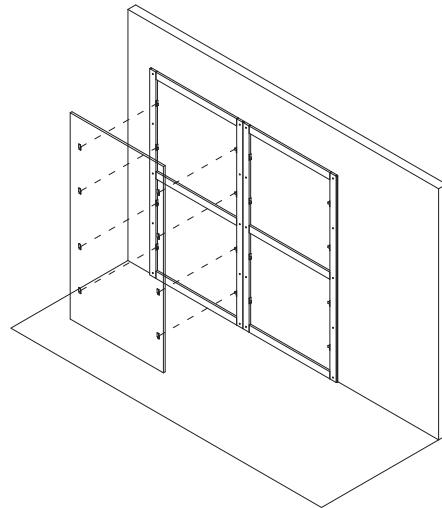

This information is based on the latest product information available at the time of printing.

assembly instruction

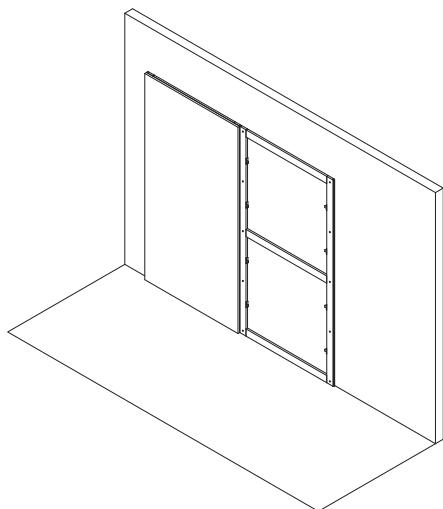

wall panels

5 Repeat the operations nr. 1 - 2 - 3 - 4 for all the frames to be installed.

6 Hook the wall panel through the pre-mounted frame supports and the respective ones pre-installed on the panel.

7 Proceed with the next panels.

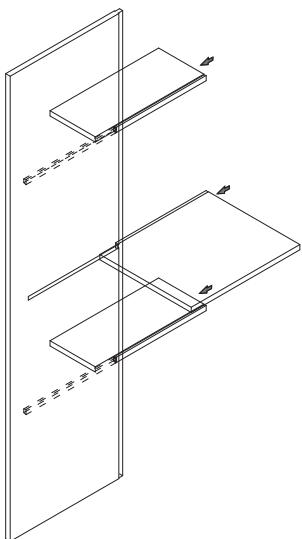

-Dimensions in centimeters and inches.

The right to discontinue and make changes is reserved.

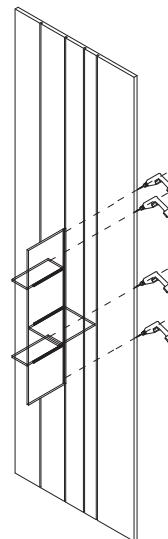

This information is based on the latest product information available at the time of printing.

assembly instruction

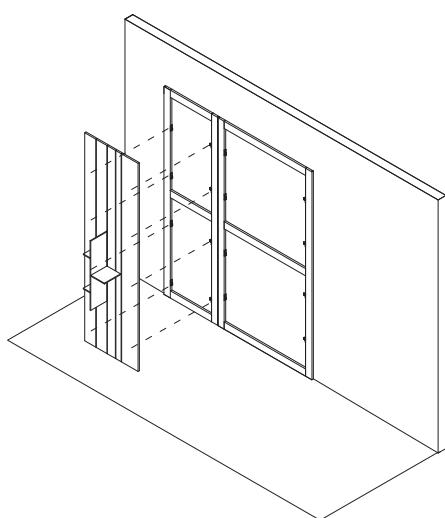

metal shelf

1 Mount the shelves by sliding them into the track.

2 Screw the shelf to the wall.

3 Hook the wall panel through the pre-mounted frame supports and the respective ones pre-installed on the panel.

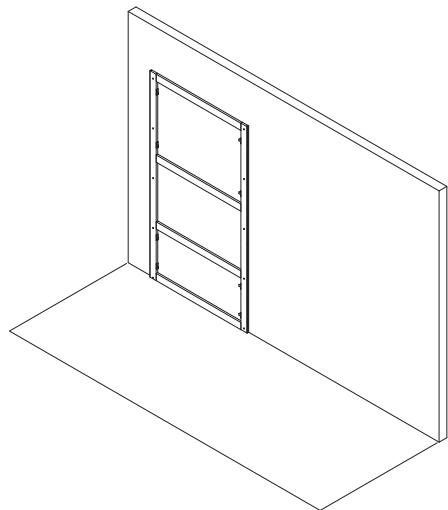

-Dimensions in centimeters and inches.

The right to discontinue and make changes is reserved.

maintenance

SPECIAL FINISHES

Do not use acid or alkali-based cleaners. Do not use scouring agents, steel wool, pot cleaners or similar. Do not use solvents to clean painted surfaces. Pointed or sharp objects, such as blades or knives, can damage (scratch) the surface. Anything hot or damp will cause damage to the surface. Clean painted surfaces with a clean, soft, lint-free cloth to avoid abrasion with particles of dirt. For soft-finish paint surfaces, use a soft, lint-free, slightly damp cloth. If heavily soiled, paint surfaces can be cleaned more easily with a neutral (silicone-free) cleaning agent. Do not use furniture polish or other care products to clean soft-finish paint surfaces. It is then essential to rub the surface dry, so that there is no residual moisture. Clean painted surfaces regularly with a soft, lint-free cloth to remove dust.

Non utilizzare detergenti acidi o alcali. Non usare agenti abrasivi, lana d'acciaio, detergenti per pentole o simili. Non usare solventi per pulire le superfici vernicate. Oggetti appuntiti o taglienti, come lame o coltelli, possono danneggiare (graffiare) la superficie. Qualsiasi cosa calda o umida causerà danni alla superficie. Pulire le superfici vernicate con un panno pulito, morbido e privo di lanugine per evitare l'abrasione con particelle di sporco. Per superfici di vernice con finitura morbida, utilizzare un panno morbido, privo di lanugine e leggermente umido. Se molto sporchi, le superfici vernicate possono essere pulite più facilmente con un detergente neutro (privò di silicone). Non utilizzare lucidi per mobili o altri prodotti per la cura per pulire le superfici di vernice. È quindi essenziale strofinare delicatamente la superficie asciutta, in modo che non vi sia umidità residua. Pulire regolarmente le superfici vernicate con un panno morbido e privo di lanugine per rimuovere la polvere.

maintenance

MARBLES

Natural stone is a high-quality natural product. Natural variations in colour and structure are special features of natural stone. Each stone is unique. Natural stone is easily damaged by acids, grease and oil. Only neutral cleaning agents should be used to clean the surface. Do not use glass cleaner, powerful abrasives, acids, alkali-based cleaners, aggressive solvents, dyes or bleach. Do not use steel wool, pot cleaners or similar. Anything hot or damp will cause damage to the surface. Protect the product against abrasion, dampness and other external influences to prevent the long-term destruction of the surface. Remove soiling and fluids immediately. Especially acidic, alkaline and other aggressive fluids should be removed so that they do not penetrate the natural stone. They can leave dark, light and matt stains which can no longer be removed. Dust the natural stone regularly with a soft, lint-free cloth.

I nostri marmi sono un prodotto naturale di alta qualità. Le variazioni naturali di colore e struttura sono caratteristiche speciali della pietra naturale. Ogni pietra è unica. La pietra naturale è facilmente danneggiabile da acidi, grassi e olio. Usare solo detergenti neutri per pulire la superficie. Non utilizzare detergenti per vetri, abrasivi potenti, acidi, detergenti a base di alcali, solventi aggressivi, coloranti o candeggina. Non usare lana d'acciaio, detergenti per pentole o simili. Qualsiasi cosa calda o umida causerà danni alla superficie. Proteggere il prodotto dall'abrasione, dall'umidità e da altre influenze esterne per prevenire la distruzione a lungo termine della superficie. Rimuovere immediatamente sporco e liquidi. I liquidi particolarmente acidi, alcalini e altri aggressivi devono essere rimossi in modo che non penetrino nella pietra naturale. Possono lasciare macchie scure, chiare e opache che non possono più essere rimosse. Spolverare la pietra naturale regolarmente con un panno morbido e privo di lanugine.

maintenance

WOOD

Wood is a high-quality natural product. To maintain the natural character of wood and to protect surfaces from mechanical and chemical wear, veneered surfaces are coated with a high quality transparent paint. For cleaning and care, do not use acids or alkali-based cleaners, agents with bleaching additive, scouring powder, steel wool, pot scourers or similar. Anything hot or damp will cause damage to the surface. Remove soiling and liquids immediately. Use a dry soft cloth for cleaning, eventually add a little neutral cleaning agent to the water. The cloth must be only slightly damp, to prevent discolouration or swelling of the surface. It is then essential to rub the surfaces dry, so that there is no residual moisture.

Il legno è un prodotto naturale di alta qualità. Per mantenere il carattere naturale del legno e proteggere le superfici dall'usura meccanica e chimica, le superfici impiallacciate sono rivestite con una vernice trasparente di alta qualità. Per la pulizia e la cura, non usare detergenti acidi o alcalini, agenti con additivi sbiancanti, polveri abrasive, lana d'acciaio, spugne o simili. Qualsiasi cosa calda o umida causerà danni alla superficie. Rimuovere immediatamente sporco e liquidi. Utilizzare un panno morbido e asciutto per la pulizia, eventualmente aggiungere un po' di detergente neutro nell'acqua. Il panno deve essere solo leggermente umido, per evitare scolorimenti o rigonfiamenti della superficie. È quindi essenziale strofinare gentilmente le superfici asciutte, in modo che non ci sia umidità residua.
