

## Boiserie Tatami - Tatami collection

design Cesare Arosio

Tatami is a modern wall panelling system which features a new finish created by combining a special lacquering with a random textured three-dimensional baselayer. By combining this refined finish with a simple geometric pattern, designers and architects can be inspired to cover walls, doors and even cabinets with a great aesthetical impact.

Tatami è un sistema moderno di rivestimento per pareti che presenta una nuova finitura creata combinando una speciale laccatura con una texture di fondo tridimensionale. Combinando questa finitura raffinata con un semplice motivo geometrico, designer e architetti possono ispirarsi per rivestire pareti, porte e persino armadi di grande impatto estetico.

## Boiserie Tatami - Tatami collection

design Cesare Arosio

Tatami is made of three different design modules that can be combined to create a wide number of possible solutions for creative wall decorations. Tatami panels are available in four shiny colours which will give a touch of light to every interior design project.

Tatami è composto da tre diversi moduli con disegni differenti che possono essere combinati per creare un ampio numero di possibili soluzioni per una decorazione murale creativa. I pannelli Tatami sono disponibili in quattro colori brillanti che daranno un tocco di luce ad ogni progetto di interior design.

maintenance

**PAINTS, LACQUERINGS AND  
SPECIAL FINISHES**

Do not use acid or alkaline detergents, agents with bleaching additives, abrasive powders, steel wool, sponges or the like. Do not use furniture polish or solvents to care for painted surfaces. Anything hot or humid can cause surface damage. Pointed or sharp objects, such as blades or knives, can cause damage to the surface. For the cleaning and care, regularly wipe the surfaces with a clean, soft, lint-free cloth to remove dust while avoiding abrasion. For soft-finish painted surfaces, use a soft, lint-free, slightly damp cloth. If heavily soiled, painted surfaces can be cleaned with a neutral, silicone-free detergent. Finally, it is essential to gently rub dry surfaces, so that there is no residual moisture.

**TINTE, LACCATURE E FINITURE  
SPECIALI**

Non usare detergenti acidi o alcalini, agenti con additivi sbiancanti, polveri abrasive, lana d'acciaio, spugne o simili. Non utilizzare lucidi per mobili o solventi per la cura delle superfici vernicate. Qualsiasi cosa calda o umida può causare danni alla superficie. Oggetti appuntiti o taglienti, come lame o coltelli, possono causare danni alla superficie.

Per la pulizia e la cura, pulire regolarmente le superfici con un panno pulito, morbido e privo di lanugine per rimuovere la polvere evitando l'abrasione. Per le superfici vernicate con finitura morbida, utilizzare un panno soffice, privo di lanugine e leggermente umido. Se molto sporche, le superfici vernicate possono essere pulite con un detergente neutro privo di silicone. È infine essenziale strofinare gentilmente le superfici asciutte, in modo che non sussista umidità residua.

maintenance

CERAMIC

Ceramics do not require special protective treatments.

Correct and systematic cleaning is sufficient to keep the surface unaltered.

Do not use cleaning products containing hydrofluoric acid (HF) and its derivatives.

Do not use abrasive agents, steel wool, pot cleaners, glass cleaners, aggressive solvents, dyes, bleach or the like.

For cleaning and care, proceed with a simple washing with hot water, a soft cloth or sponge and possibly with the use of neutral and well-diluted detergents.

The final gentle rinsing with a clean cloth is recommended to avoid streaks and residues.

CERAMICA

Le ceramiche non necessitano di speciali trattamenti di protezione.

Una corretta e sistematica pulizia è sufficiente a mantenere inalterata la superficie.

Non utilizzare i prodotti di pulizia contenenti acido fluoridrico (HF) e i suoi derivati.

Non usare agenti abrasivi, lana d'acciaio, detergenti per pentole, detergenti per vetri, solventi aggressivi, coloranti, candeggina o simili.

Per la pulizia e la cura, procedere con un normale lavaggio con acqua calda, straccio o spugna morbida ed eventualmente con l'utilizzo di detergenti neutri e ben diluiti.

Il risciacquo finale con uno straccio pulito è consigliabile in qualsiasi caso per evitare aloni e residui.
